**5.2 Establishment of Accessibility Plans and Policies**

The District shall produce a multi-year accessibility plan that establishes, implements, maintains and documents the phased-in strategy to prevent and remove barriers as well as addressing current and future requirements of the AODA. The plan will be reviewed by the AAC and approved by Council at least once every five years. In addition, the plan will be posted on the District’s website and shall be made available in an accessible format and with communication supports, upon request.

## **6. Customer Service Standards:**

### **6.1 The Provision of Goods and Services to Persons with Disabilities**

The District will use reasonable efforts to ensure that its policies, practices and procedures are consistent with the following principles:

- The District's goods and services are provided in a manner that represents the dignity and independence of persons with disabilities.
- Persons with disabilities are given an opportunity equal to that of persons without disabilities to obtain, use or benefit from the District's goods and services.

### **6.2 Assistive Devices and other Measures that Assist with Accessibility**

A person with a disability may provide his/her own assistive device for the purpose of obtaining, using and benefiting from the District's goods and services. Exceptions may occur where the District has determined that the assistive device may pose a risk to the health and safety of a person with a disability or the health and safety of others on the premises.

It should be noted that it is the responsibility of the person with a disability to ensure that his or her assistive device is operated in a safe and controlled manner at all times.

### **6.3 Service Animals**

If a person with a disability is accompanied by a guide dog or other service animal, the District will permit the person to enter the premises with the animal and keep it with him or her, unless the animal is otherwise excluded by law from the premises. If a service animal is excluded by law, the District will look to what alternate means are available to enable the person with a disability to obtain, use or benefit from the District's goods and services.

It is the responsibility of the person with a disability to ensure that his or her service animal is kept in control at all times.

### **6.4 Support Persons**

A person with a disability may enter premises owned and/or operated by the District with a support person and have access to the support person while on the premises.

The District may require a person with a disability to be accompanied by a support person while on its premises, but only if a support person is necessary to protect the health or safety of the person with a disability or the health or safety of others on the premises.

When a support person is accompanying a person with a disability to obtain, use or benefit from the District's goods and services, the support person will be permitted to attend at no charge where an admission fee is applicable.

Where fees for goods and services are advertised or promoted by the District, it will provide advance notice of the amount payable, if any, with respect to the support person.

## **6.5 Disruption of Services**

The District is aware the operation of its services and facilities is important to the public. However, temporary disruptions in services and facilities may occur due to reasons that may or may not be within the District's control or knowledge.

If there is a disruption in a particular facility or service used to allow a person with a disability to access goods or services, the District will give notice of the disruption to the public by posting in a conspicuous place on the premises of the District facility, or on the District's website ([www.muskoka.on.ca](http://www.muskoka.on.ca)) or by any other method that may be reasonable under the circumstances.
